Amarnath Ghosh

Kolkata, West Bengal

EDUCATION

Sister Nivedita University, Kolkata

2022 - 2026

Bachelor of Computer Science and Engineering CGPA: 7.03

Kolkata, West Bengal

Courses: Data Structures, Operating Systems, Computer Networks, Object Oriented Programming, Database Management System

EXPERIENCE

Employability.life

September 2024 - November 2024

Role - Api testing and Cybersecurity Intern

Remote

- Developed expertise in **Cybersecurity** and **API testing** through a hands-on project focused on securing and validating **RESTful APIs**, ensuring robust protection and functionality
- Conducted comprehensive **API Testing** using **Postman** and *curl*, identifying vulnerabilities and optimizing endpoint performance to enhance system reliability and performance to enhance system reliability.
- Proficiently utilized **Linux environments** for scripting, server configuration, and security testing, strengthening commandline skills and deepening system-level knowledge. .

SKILLS SUMMARY

Languages: C, C++, Python, JavaScript

Web Development & Frameworks: HTML, CSS, Bootstrap, Tailwind CSS, TypeScript, React.js, Node.js, Express.js, Next.js

Database: SQL, MySQL, PostgreSQL, MongoDB, Oracle

Tools: GitHub, VS Code, Postman, Firebase, MS Excel, Jupyter Notebook

AI/Automation: Gemini AI, OpenAI APIs

PROJECTS

Energy-IOT 🗷 | Next.js, Tailwind CSS, TypeScript, React.js, Node.js , Firebase

Aug 2025 - Present

- Built a full-stack **IoT energy monitoring platform** with real-time current voltage tracking using **NodeMCU** and **Firebase**, empowering users to optimize household electricity usage.
- Designed a responsive and modern dashboard with Next.js 14 App Router, Tailwind CSS, shadcn/ui, and Lucide React, delivering intuitive insights and remote appliance control.
- Implemented automated energy alerts and usage analytics, enabling proactive decisions to reduce energy waste and improve efficiency.

Study Buddy Z | HTML, CSS, JavaScript, Firebase Authentication

Jul 2025 - Present

- Developed **Study Buddy**, a real-time, web-based learning platform aimed at helping students connect, collaborate, and solve academic queries through live Q&A sessions and curated educational content.
- Implemented dynamic content rendering and interactivity using HTML, CSS, and JavaScript, enabling seamless navigation, instant feedback, and a highly engaging user experience.
- Integrated **Firebase Authentication** to manage secure **user sign-ups** and **logins**, ensuring a personalized experience for each student while maintaining data privacy and access control.

SheConnect HTML, CSS, JavaScript, Firebase Authentication

APR 2024

- Engineered a women's networking platform with real-time chat and secure authentication to foster seamless and inclusive community engagement.
- Designed and implemented frontend and backend using HTML, CSS, JavaScript, and Firebase, ensuring robust database integration and user authentication.
- Enhanced mentorship opportunities for women by enabling secure, user-friendly interactions, promoting an inclusive and supportive networking environment.

CERTIFICATIONS

- Hackerrank Certifications: Advanced SQL, CSS, Rest API and Python.
- Employability.life Certifications: Cybersecurity Security Testing of a Vulnerable API.
- IBM Certifications: Introduction to Data Analytics and People and Soft Skills for Professional and Personal Success.
- University of Colorado Boulder Certifications: The Structured Query Language (SQL).
